Europium Select Import Services as Logistics Partner!

Europium World has appointed Import Services as logistics partner to underpin planned growth in the UK and internationally

Europium World Ltd (madebyzen®) is an established and successful company focusing on bringing new and innovative products to the mainstream market via worldwide manufacturers and an expanding network of high net worth retail customers. Founded in 2009, Europium World is fast becoming a globally recognised business through dedicated customer service and quality product innovation and development.

The new partnership will see Import Services provide inbound logistics, bonded warehousing, high volume order procession and distribution throughout the UK, Eire, Continental Europe and further afield.

This complete logistics service designed to provide the optimum route to Europium's customers via Import Services' Southampton container port DC's.

Mike Thomas, Client Services Director at Import Services said "We are excited to work with the Europium World team who have recognised the efficiencies to be gained by adopting a port-centric distribution model. Europium World joins a portfolio of like- minded Clients at Import Services now with agile supply chains to meet the demands of the new world of retailing."

Dharmesh Bhayani, Managing Director at Europium World UK Ltd said, "After a long vetting process we chose Import Services as our logistics partner as we felt they took time out to understand our current business and visualised our future needs."

About Import Services:

Import Services manages retail supply chains, from product origin, to customer delivery, in the UK and across Continental Europe. Distribution Centres are located in Southampton, with a head office in Hedge End.
