### **Kale Logistics Solutions' Quality Assurance Team achieves the prestigious International Software Testing Qualifications Board (ISTQB) Certification**

The International Software Testing Qualifications Board's Foundation Level Syllabus forms the basis for the International Software Testing Qualification and is aimed at gaining understanding of software testing. Recently Kale Logistics' testing team cleared this globally recognised certification test and got the ISTQB Foundation Level Certification.

**Mumbai, March 08, 2018:** Kale Logistics Solutions is a trusted IT Logistics partner for Fortune 500 companies, offering a comprehensive suite of IT solutions for the logistics domain. The company has always regarded employee learning and development to be the core strength of their successful operations while keeping focus on customer delight. Taking this belief forward, the globally recognized International Software Testing Qualifications Board (ISTQB) certification exam was organized by the company for its quality assurance team. It was an incredibly proud moment for Kale Logistics when the team cleared the exam with flying colors and were awarded the certificates.

With this certification, the company has once again proved that employee reinforcement is central to the company's vision in establishing a conducive workplace. The certification is not just a value addition for employees, but also improved the company standing as a global organization. At Kale, customer satisfaction is of paramount importance. With this certification, the company expects to achieve competency in their operations, augment the quality of deliverables and drive increased customer delight along with complying with subscribed to a Code of Ethics for quality.

Congratulating the employees on this occasion, Mr. Rajesh Panicker, COO, Kale Logistics Solutions said, "As an organization, we often encourage our employees to try and keep enhancing their skills through formal and tacit learning. This certification is one of the most widespread qualification scheme in the world, whose syllabi and glossary have become a de facto industry reference for software testing professionals. Thus, we were keen on our employees appearing for this certification. We are proud that our team passed the certification with great efforts, balancing their routine tasks alongside. Possessing this certificate will definitely provide a winning edge to our employees. With this certification, we are looking forward to serve our clients better."
