Widerøe goes live on Kale's GALAXY – Air Cargo Management software

Kale Logistics Solutions collaborated with Widerøe as a technology partner to provide air cargo management system for more than 38 of their Airport Stations across Nordic region. Widerøe is the largest regional airline operating in the Nordic countries.

Mumbai, June 05 2018: Kale Logistics Solutions is a trusted IT Logistics partner for Fortune 500 companies worldwide, offering a comprehensive suite of IT solutions for the logistics domain. Recently, Widerøe Ground Handling went live on Kale's GALAXY as part of a phase-wise implementation plan for about 39 of their airport stations across the Nordic region. Widerøe Ground Handling is a leading enterprise providing ground-handling services at 42 airports throughout Norway, and handles around 185 departures yearly. The company is serving around 41 domestic and 6 international destinations with an impressive turnover of over 2.9 billion KR. In order to manage the growing volume of business, Widerøe has collaborated with Kale Logistics Solutions for adoption of GALAXY- a web based Air Cargo Management System. GALAXY incorporates several next generation features like Mobile App, Customer Portal, Hand-held based app and EDI with Airlines. With GALAXY, users can experience complete automation, visibility, control and drive collaboration within the stakeholder network.

Speaking on the occasion, Mr. Vineet Malhotra, Director, Kale Logistics Solutions said, "We are delighted to partner with Widerøe for GALAXY. Air cargo operations are intricate and complex with numerous stakeholders involved at each step of a cargo transaction. With GALAXY, Widerøe can feel extremely confident that all their concerns will be addressed in a systematic and industry compliant way. GALAXY is a preferred solution used by worldwide airports that incorporate global best practices and prepare the industry to manage growing industry demands"

Commenting on the go-live, Espen Westermann, Cargo Operation Manager & Key Account Manager, Widerøe Ground Handling AS, said, "Our operations are dispersed in about 39 airport locations handling varying volumes. It was thus imperative for us to choose a technology partner who can apprehend our requirements and provide us with the most suitable solution. Moreover, as we were operating on strict deadlines, it was imperative that the solution implementation and live was prompt. Kale Logistics Solutions ensured a quick roll out for us within the stipulated deadline. With Kale's GALAXY airport cargo handling system, we were able to gain complete control and visibility on our operations. GALAXY is a cost effective and flexible solution enriched with comprehensive features especially designed for airport cargo operations."
