

CFL appoints e-CARGOWARE to transform its Courier Handling facilities.

London, United Kingdom 6 Feb, 2018 /Press Release/ -- e-CARGOWARE today announced that it has been selected by Courier Facilities Limited to transform their Courier Handling System into a state of the art courier handling solution at Heathrow.

e-CARGOWARE'S cloud based Cargo Management Platform is flexible, robust, easy to use, eliminates paper and conforms to IATA e-AWB specification. The platform is used by several GSSAs and Cargo Handlers worldwide to actively market and service leading airlines including the likes of Delta, American Airlines, British Airways, Emirates, Lufthansa, Qatar, Etihad to name a few.

Courier Facilities Ltd – CFL provides a critical link for the Airlines operating at LHR with the Courier Industry. The UK's only dedicated express courier handling facility, it is responsible for providing export, import and screening services for courier companies and provides a facility for ground handlers and airlines.

“We are excited to announce our continued association with e-Cargoware Ltd” said Matthew Ware, MD of CFL “With explosion of global e-commerce, we are transforming our facilities to be a defacto express gateway at Heathrow for e-commerce. Technology is a crucial part of our transformation strategy and are confident that e-CARGOWARE’s cloud platform will deliver our digital strategy.”

Ramesh Darbha, CEO of e-CARGOWARE said “We are excited to be part of CFL’s digital transformation strategy and look forward to working with Matthew and his team in realising their vision”.
