PRESS RELEASE

Aydya appoint Walker to bolster UK supply chain

Aydya, a multi-award winning company that offers a range of innovatively-designed products for the home under various brand names, has appointed supply chain specialist, Walker Logistics, to bolster its growing retail sales operation.

Berkshire-based Walker will manage the storage and distribution of the Aydya range – delivering to the company’s growing list of UK-based retail partners, which includes names such as Amazon, House of Fraser and Maplin.

The contract will operate from Walker’s 200,000 sq ft multi-client warehouse facility just outside Reading.

William Walker, sales and marketing director of Walker Logistics, commented: “We are, of course, extremely pleased to be associated with Aydya who are seen as one of the UK’s most innovative suppliers of design-conscious home-ware products.”

He added: “Our team will work closely with Aydya to develop solutions that meet both their current and future supply chain needs.”
