

Newcastle November 22nd 2018

Kontainers continue enabling Freight Forwarder digital expansion with \$1,000,000 end of year software giveaway

Dubai will be the venue for the OceanX's Launch Conference next week, where forwarders from all over the world will gather to network, collaborate and take part in FreightTech workshops over 4 days.

To celebrate Cyber Monday and to finish off an impressive year, the Enterprise SaaS provider will be giving away \$1,000,000 worth of award winning software to attendees.

Every one of the almost 100 Freight Forwarders present from dozens of countries can get their hands on a "Golden Ticket" offering 10% off a Kontainers Edge license.

The graphic is a golden ticket with a dark gold background. At the top, the word "kontainers" is written in a lowercase, sans-serif font. Below it, the words "GOLDEN TICKET" are written in a large, bold, uppercase, sans-serif font. Underneath the main text, there are four columns of information: "EXPIRES MARCH 31st 2019", "DISCOUNT 10% OFF EDGE LICENSE", "PLACE WORLDWIDE", and the "OCEAN" logo with the tagline "The seafreight specialists." Below these columns, a thin line separates them from the text "THIS GOLDEN TICKET ENSURES ADMITTANCE" at the bottom.

GOLDEN TICKET

EXPIRES **MARCH 31st 2019** DISCOUNT **10% OFF EDGE LICENSE** PLACE **WORLDWIDE** **OCEAN** 
The seafreight specialists.

THIS GOLDEN TICKET ENSURES ADMITTANCE

It further emphasizes Kontainers' commitment to existing shipping brands, helping accelerate their digital journey and future-proof their business with a digital execution platform in just four weeks.

Kontainers Edge, just ten weeks after release, is an award-winning product and serving Freight Forwarders in over a dozen countries.

"I don't believe any company is as committed as we are to working with Freight Forwarders to accelerate their client-facing technology stack. Our proven product offering has transacted a six-figure TEU count per annum for large shipping brands like Maersk, and is unique in speed, price, and credibility. Today we are doubling down on our commitment with what may be the biggest software giveaway in the history of ocean freight technology" Kontainers CEO, Graham Parker
