

Scanpartners goes digital with e-CARGOWARE Platform.

Copenhagen, Denmark 10 Jan 2019 /Press Release/ -- Scanpartners a leading independent GSSA in the Nordics with offices in Helsinki – Finland, Oslo -Norway, Stockholm -Sweden and Copenhagen – Denmark has announced that it has successfully went live with e-CARGOWARE Cargo Management Platform on 2nd January.

e-CARGOWARE's cloud based Cargo Management Platform is flexible, robust, easy to use, eliminates paper and conforms to IATA e-AWB specification. The platform is used by several GSSAs and Cargo Handlers worldwide to actively market and service leading airlines including the likes of Delta, American Airlines, British Airways, Emirates, Lufthansa, Qatar, Etihad to name a few.

Scanpartners offer a full program of cargo management services including price negotiation, reporting, market analysis, sales, cargo mix optimisation, space management, relationship management, airside access, AWB verification and customer surveys.

“We are excited to announce our association with e-Cargoware Ltd” said Steen Keller, CEO of Scanpartners Ltd. “e-CARGOWARE team are flexible, easy to work with and have provided a modern digital platform that automates our Account Management, Quotes, Reservations and

Revenue Accounting functions. Soon we will be going live with their KPI Dashboards that will help us monitor our Revenue and Tonnages targets Realtime on any devices”

Des Vertannes, Chairman of e-CARGOWARE said “I am delighted that Scanpartners have chosen e-CARGOWARE to digitise their cargo operations. Arun, Ramesh and team have developed an innovative platform that is gaining wider interest and adoption in our industry and i’m pleased to be involved with them on this journey.”
